Professional Summary

Full Stack Developer pursuing MCA in Software Engineering at Guru Gobind Singh Indraprastha University with hands-on experience in building scalable web applications, REST APIs, and AI-powered platforms using React, Node.js, Express.js, MongoDB, MySQL, Flask, and JavaScript. Strong understanding of Object-Oriented Programming (OOP), Data Structures & Algorithms, SQL, REST APIs, SDLC, and modern web development concepts. Experienced in frontend-backend integration, authentication systems, debugging, Agile collaboration, and scalable application development. Proficient in Git/GitHub with strong analytical, problem-solving, and communication skills. Quick learner adaptable to new technologies and fast-paced development environments.

Technical Skills

Languages: JavaScript (ES6+), Python, PHP, C++, C#, SQL

Frontend: React.js, HTML5, CSS3, Tailwind CSS

Backend: Node.js, Express.js, Flask

Databases: MongoDB, MySQL

Tools & Concepts: Git, GitHub, Postman, VS Code, REST APIs, JWT Authentication, Agile, SDLC, API Integration

Core Concepts: Object-Oriented Programming (OOP), Data Structures & Algorithms, Debugging, Problem Solving Experience

Frontend Development Intern

IBM | Remote | Jul 2025 – Aug 2025

- ❖ Collaborated within a 5-member Agile team to develop responsive and reusable frontend components using React.js, JavaScript, HTML5, and CSS3.
- ❖ Translated complex user requirements and wireframes into accessible, modular, and reusable UI components.
- ❖ Performed debugging, testing, and cross-browser optimization to improve application performance and reliability.
- ❖ Participated in sprint discussions, code reviews, and feature implementation.

Full Stack Intern

UpToSkills | Remote | Mar 2025 – Jun 2025

- ❖ Led an 8-member core development team in building an AI-powered online assessment platform using React.js, Node.js, Flask, and MongoDB.
- ❖ Developed secure authentication systems, dashboards, quiz modules, analytics, and AI-integrated workflows.
- ❖ Integrated Gemini AI APIs to automate quiz generation, reducing manual setup time by 80%.
- ❖ Coordinated sprint planning, task delegation, debugging, and deployment activities in a fast-paced Agile environment.

Projects

Online Assessment Test – React, Tailwind CSS, Node.js, Flask, Gemini API

- ❖ Developed a full-stack AI-powered assessment platform with role-based authentication for HR and candidates.
- ❖ Integrated Gemini AI APIs to generate 100+ quiz questions dynamically within seconds.
- ❖ Implemented real-time proctoring features including webcam monitoring, tab-switch detection, eye-tracking.
- ❖ Built responsive dashboards, analytics modules, and secure REST API integrations.

Airbnb Clone – Node.js, Express.js, MongoDB, EJS, Tailwind CSS

- ❖ Developed a scalable property booking platform using Node.js, Express.js, MongoDB, EJS, and Tailwind CSS.
- ❖ Implemented CRUD operations, authentication systems, and booking workflows.
- ❖ Designed responsive and user-friendly interfaces for hosts and guests.

Additional Projects:

- ❖ **Grocery Shop Website** – Cart & billing system with responsive UI.
- ❖ **Solar System Simulation** – Interactive 3D visualization of planetary motion using **JavaScript (Canvas API/Three.js)**, enhancing learning through **real-time animations and orbit controls**.

Education

- ❖ M.C.A. (Software Engineering) | USICT, GGSIPU | 2024–2026 | **CGPA: 8.6**
- ❖ B.Sc. (Physical Science with Computer Science) | Rajdhani College, DU | 2020–2023 | **CGPA: 8.47**
- ❖ Senior Secondary (12th) | CBSE | 2019–2020 | **85%**
